

## ZERVAS WORKING GROUP REPORT

May 30, 2014

The Zervas Elementary School Feasibility Study and Educational Program Report is coming to conclusion. The study report will include detailed documentation of:

- Educational program and space program
- Existing conditions investigations for the building and site
- Site Selection process including alternative locations and evaluation criteria
- Site expansion analysis, costs and benefits
- Site layout options for the existing and expanded site
- Building floor plan options and orientations
- Design progression and analysis for further development in Schematic Design
- Local review and approval process with the executive office, Public Buildings Department, Newton Public Schools, committees, boards, agencies, and considerable community engagement

The Design Review Committee and the Zervas School Building Committee will be meeting on Wednesday, June 4, 2014 in the Aldermanic Chamber at 5 PM to review the Feasibility Study conclusions. The Board Aldermen and School Committee will meet jointly to review the report on June 11 at 7 PM. The location for the joint meeting has yet to be determined. After those reviews, the Zervas School Building Committee will meet to take a vote on June 26, 2014.
